Parfum Nostalgique

Hello, Dear!

♡What is Parfum Nostalgique?♡

Parfum Nostalgique is a free-to-play, ongoing kinetic visual novel dram-com series played from the POV 265-year-old therapist-by-day, dom-by-night vampire, available for download on PC and Mac, and available for browser play on mobile, PC, and Mac.

♡What is a visual novel?♡

A visual novel (VN) is a form of digital interactive fiction. Visual novels are often associated with the medium of video games, but are not always labeled as such themselves. They combine a textual narrative with static or animated illustrations.

Parfum Nostalgique is a kinetic visual novel, which is a click-through story comprised of dialogue, illustration, sound design, voice acting, and animation. It is as though the reader is watching a play in the medium of a text-based video game.

♡Who is Parfum Nostalgique for?♡

Parfum Nostalgique is best for an audience that is at least 16+ years of age due to sexual themes.

It has primarily been enjoyed by trans and broader queer-spectrum readers from ages 20-65, with the average reader age being about 27.

Seekers of queer/POC representation and lovers of gothic fiction, vampires, shoujo/josei manga, romance stories, theatre, Korean/Japanese dramas, telenovelas, generally dramatic or rebellious art and fiction, and of course visual novels, are most likely to enjoy this work.

With there is no end in sight, there is only the middle...

Every crisis is a midlife crisis for a vampire!

An ordinary midlife crisis would be juicy on its own, but our Valdemar Andressen is anything but an ordinary person....

Slip into the platform boots of an already too tall 265-year-old therapist-by-day, dom-by-night vampire as he navigates the complexities of love, sex, friendship, the consequences of his actions, confronting his own mortality, the fragility of existence on a floating rock in the endless sea of space, and other lighthearted everyday challenges that come from centuries of life experience.

Parfum Nostalgique is a heartfelt tale about the people who change us, for better and for worse. From betrayal to unconditional love, from regret to hope... see the drama unfold between exes and lovers, old friends and new, when you dive into this kinetic visual novel dram-com series.

With delicate vintage shoujo-inspired art, original soundtrack, and a diverse cast of voice actors, Parfum Nostalgique is a lovingly handmade passion project packaged with sweets and scented with roses by sole developer Prince Rosalium for your reading pleasure.
