DIGITAL GAMES, PHYSICAL SPACES: bridging the gap between indie games and local business spaces

Project Menagerie GETS INDIE GAMES IN LOCAL SPACES!

GAME DEV'S EDITION

we are PROJECT MENAGERIE!

Project Menagerie is a volunteer-run initiative that aims to get more indie games in more physical spaces in an age of digital-only dominance.

Sony will cease manufacturing physical games in 2028. Valve has made it so gamers no longer get to fully own the media they buy for their own use under the guise of "convenience."

In reality, *the people still want physical games*, and companies with the most power over the art form we love the most is trying to take away our ownership of it. *They care about profit more than media preservation*

Indie game developers who care about this issue are making their own physical games, and if you care too, *you can join us!*

PHYSICAL GAMES IN 2026?

Nowadays, indie developers make their games available on custom USB drives, packaging them in all sorts of interesting ways to attract players!

You can read our free informational zine on how indie developers can make their own physical copies here!

? HOW TO GET INVOLVED ?

Are you a game dev/team who makes and/or sells your indie games in physical form?

Project Menagerie can hook you up with spaces that want to collaborate!

All you have to do is fill out our form, and we'll put you on our list.

We'll contact you about any shops on our roster looking for games to sell, and answer any questions you have.

We are a collection of real volunteers ready to match your space to great games!

Not interested in selling games?

Send us an 8.5x11' poster of your project, and we'll put it in the free Poster Pack PDF for any spaces who want to display it!
